

JANUARY 2020

BUILDING COMMUNITY, TRANSFORMING LIVES

We have completed our capital campaign!

-Interim capacity increased by 137%
-20 New affordable housing units

THANK YOU FOR YOUR SUPPORT!!

We have officially completed our capital campaign and moved into our new home!

In light of space and capacity constraints, we recently undertook the most significant project in our history: the purchase, development and expansion into a new facility. On June 11th, 2019, moved into our new facility at 1521 N. Sedgwick in the Old Town neighborhood. We are now better positioned than ever before to meet the increasing demand for quality services, ultimately improving the lives of individuals experiencing homelessness in our community.

Thanks to loyal supporters like you, we have completed our \$4 million fundraising goal! Your partnership and investment serve as a testament to the incredible power of community collaboration to address some of society's most critical needs. Homelessness is a community challenge and requires a community response; we cannot thank you enough for responding time and time again to help us address the needs of our more vulnerable neighbors.
